### **DETAILED ACTION**

Claims 1-20 are pending in the instant application.

#### ***Election/Restriction***

Claims 1-10, 15-20 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No. 6.

Applicant's election with traverse of Group VI in Paper No. 6 is acknowledged. The traversal is on the ground(s) that Groups V and VI are both drawn to similar methods and would be a burden to search as a single invention. This is not found persuasive because the different and distinct inventions comprise different methods steps and the examination of each invention requires different searches of the prior art and consideration of different issues including enablement and proper examination of both of these distinct and independent groups would be burdensome.

The requirement is still deemed proper and is therefore made FINAL.

#### ***Allowable Subject Matter***

This application is in condition for allowance except for the presence of claims (1-10 and 15-20) drawn to an invention non-elected with traverse in Paper No. 6. Applicant is given ONE MONTH or THIRTY DAYS from the date of this letter, whichever is longer, to cancel the noted

claims or take other appropriate action (37 CFR 1.144). Failure to take action during this period will be treated as authorization to cancel the noted claims by Examiner's Amendment and pass the case to issue. Extensions of time under 37 CFR 1.136(a) will not be permitted since this application will be passed to issue.

The prosecution of this case is closed except for consideration of the above matter.
